

Asphalt Paving • Grading

“Street Improvement Notice”

Construction work for the Town of Los Gatos' FY 2020/21 Street Repair and Resurfacing Project is scheduled to commence starting on August 2nd, 2021.

This phase of the project, which will take place throughout the Town, consists of Asphalt Digouts and Asphalt Leveling. Construction hours are 8:00am to 5:00pm.

Traffic control measures will be utilized, such as signage, detours, and lane closures with flagmen, to allow travel through or around the work zone during construction. Although you may be slightly inconvenienced during the construction period, residents and businesses will be provided access to and from their property when required.

We would like to assure everyone that we will do our best to make sure that any disruptions resulting from this project are kept to a minimum. We apologize for the inconvenience. Your patience and cooperation are greatly appreciated.
