## **NOTICE OF UPCOMING SEWER CONSTRUCTION ACTIVITY**

West Valley Sanitation District has contracted with SAK Construction to rehabilitate the sewers along the streets shown on the back of this notice. This work is scheduled to begin on April 6, 2023 and last approximately four months. Rehabilitation of the sewers will increase the reliability and extend the life of this critical piece of infrastructure.

The rehabilitation process will not require excavation. However, equipment will need to be parked over and around sewer manholes for a continuous 36-hour period. During this period, street parking may be restricted, and temporary traffic lane closures or detours may be required. “No Parking” signs will be posted 72-hours in advance of work.

Access for emergency vehicles, garbage collection, in addition to access to driveways will be maintained throughout the sewer rehabilitation process. Interruptions to your sanitary sewer service are not required.

Additional notifications will be distributed to affected residents and businesses two weeks and 72-hours in advance of construction activities in your immediate area.

For any questions regarding this notice or during construction please contact:

Bill Hunt – Field Engineer  
SAK Construction                      or  
Phone - 530-391-7896  
[whunt@sakcon.com](mailto:whunt@sakcon.com)

Todd Chalk – Project Manager  
SAK Construction  
Phone – 916-872-7648  
[tchalk@sakcon.com](mailto:tchalk@sakcon.com)

West Valley Sanitation District and SAK Construction thank you for your cooperation and patience during this work.
